BOOK NOW

CRACK REPAIRS

Description: We seal and reinforce foundation cracks to prevent water intrusion, structural damage, and further deterioration.

Estimated Cost: **\$500 – \$5,000**
(depending on severity and length of cracks).

WALL BRACING & STRUCTURAL REINFORCEMENT

Description: Bowing or leaning foundation walls? We stabilize them using carbon fiber reinforcements, wall anchors, or steel bracing to prevent further movement.

Estimated Cost: **\$4,000 – \$12,000**, depending on the extent of the issue and reinforcement method used.

FOUNDATION LEVELING & UNDERPINNING

Description: If your foundation has settled or shifted, we restore it using advanced leveling techniques, including pier installation and mud jacking.

Estimated Cost: Starting at \$3,500, with larger repairs averaging between **\$8,000 – \$15,000**.

BASEMENT WATERPROOFING

Description: Our waterproofing solutions include interior drainage systems, sump pumps, wall sealing, and exterior moisture barriers to prevent flooding and water damage.

Estimated Cost: **\$2,500 – \$7,000**, depending on basement size and waterproofing method.
